Schizophrenia and CBD Oil

Power of HempWorx
Schizophrenia is a mental disorder which leads to serious distortions in a person’s thinking, including hallucinations or hearing voices. Other symptoms often include depression and difficulty maintaining interest in social activities and hobbies. While conventional pharmaceutical treatments can help, they often have unpleasant side effects.
CBD for Schizophrenia

CBD OIL FOR SCHIZOPHRENIA IS:

1. Effective
2. Well Tolerated
3. Safe
4. Minimal Side Effects Reported
Study published in 2011 by Schizophrenia Research states that high-CBD forms of psychoactive cannabis seem to lead to fewer psychotic episodes.
In a 2006 study published by the Brazilian Journal of Medical and Biological Research, scientists noted that CBD seemed to reduce artificially induced symptoms of psychosis in both animals and healthy volunteers.
In 2015, two scientists, T.A. Iseger and M.G. Bossong, published a systematic review of all CBD and schizophrenia studies in Schizophrenia Research. They concluded, “The first small-scale clinical studies with CBD treatment of patients with psychotic symptoms further confirm the potential of CBD as an effective, safe and well-tolerated antipsychotic compound, although large randomized clinical trials will be needed before this novel therapy can be introduced into clinical practice.”

Cannabidiol: pharmacology and potential therapeutic role in epilepsy and other neuropsychiatric disorders.
I have had consistent positive experiences with CBD. It helped a lot with my visual hallucinations, which is my most common and troubling symptom. It also helps with anxiety and sleep. It has not helped with my tactile hallucinations, which is my second most common symptom.
I’ve been on CBD oil (hemp derived no THC) for about 2 months. I didn’t think it would help at all with my psychotic symptoms. I mostly got it for my long time PTSD. Turns out, it helps a bit with PTSD, especially when I’m having flashbacks. But for my other psychotic symptoms it almost eliminates. Unless I’m having a straight up psychotic episode, then I need some help from another person as well to calm it down. It usually eliminates voices and other hallucinations for me....

What Dosage Should I take of HempWorx 750?

HempWorx

Serving Suggestions

Each full dropper (1ml) contains 10-15mg of CBD and you can control your serving size by squeezing the right amount into the dropper. This info is purely a guideline and does not replace your medication or doctor prescriptions. The information contained is merely a starting point of reference. The fact remains that everyone is different and will react different to their CBD serving. As tolerance of CBD is different for everyone, it is best to start small and gradually increase until you experience the desired result.

HEMP WORX CBD OIL

1 Full Dropper = 1 Serving
1 Serving = 10-15mg of CBD (depending on whether you have a 500mg or 750mg bottle)
Maximum Recommended Serving = 20-30mg Daily (Full Dropper Twice A Day)

HOW TO USE OUR CBD OIL

We recommend you start slow and gradually increase your dosing over a 3-4 week period. Start with 5 drops (1/4 of a dropper) twice a day for the first week. On week 2-3, go up to 10 drops twice a day. By week 4, you can go up to 20 drops (full dropper) twice a day to get the full 20-30mg of CBD daily. Experiment a little, and see what works for you. We also recommend that you consult your local doctor or physician for serving suggestions.

MORE SERVING SUGGESTIONS

Increasing appetite in cancer patients: 1-2 mg of CBD Oil daily
Chronic pain: 2.5-20mg of CBD Oil daily for an average of 25 days
Epilepsy: 100mg of CBD Oil daily for up to 5 months
Movement problems associated with Huntington’s disease: 10 mg of CBD Oil daily for six weeks
Sleep disorders: 40-160 mg CBD Oil daily 15 minutes before bed
Multiple sclerosis symptoms: 2.5-120 mg of CBD Oil daily for 2-15 weeks
Schizophrenia: 40-1,280 mg CBD Oil daily for up to four weeks
Glaucoma: 20-40 mg under the tongue. Doses greater than 40 mg may actually increase eye pressure

Legal Disclaimer: There are no approved clinical studies to validate the statements in this image. This information is based on independent testimonials of CBD Oil users. These statements have not been evaluated by the Food and Drug Administration. These products are not intended to diagnose, treat, cure or prevent any disease. The Food and Drug Administration (FDA) considers non-THC based hemp products to be “food-based” and therefore legal without a medical marijuana license.
HempWorx 750 CBD oil is recommended for Schizophrenia. 40 or more drops once a day.

- Begin with a low dose
- Take a few small doses over the course of the day rather than one big dose.
- Use the same dose and ratio for several days. Observe the effects and if necessary adjust the ratio or amount.
- Find out what works best for you. These are only dosage suggestions.
- Don’t overdo it.
If a little CBD oil is good, then shouldn't a lot be better?

No

CBD has a particular dose range that many call the "Goldilocks Zone" where you find just the right amount of CBD (not too much, not too little). This Goldilocks Zone differs for each disorder. For instance, CBD appears to treat anxiety at relatively low dose compared to the high doses used to treat Schizophrenia. That is why it is recommended to start with a low dose (20 drops a day for schizophrenia) and increase gradually. By doing this, you can find just the right amount for your personal needs.
CBD vs THC for Schizophrenia

Cannabis probably doesn’t cause psychosis, but people with a family history of psychotic disorders should avoid getting high. **THC is not recommended for schizophrenia.** CBD is recommended for schizophrenia. CBD does not get you high. THC gets you high and should be avoided by individuals with schizophrenia. In other words, DO NOT SMOKE WEED.
Don’t make changes to your treatment regimen without advice from medical professionals. However, I hope that this information will give people with schizophrenia, and their loved ones, more tools to use to manage their schizophrenia.
